

Contracts
Professor Abrams
Spring 2017

This examination consists of five essay questions. You will have three hours and 20 minutes in which to complete the examination: you should allow approximately *forty minutes* per question, and each question will be weighted equally.

This is a substantially open-book examination. You may have with you the published course materials and any notes prepared by you or by any other student. You may *not* consult any commercially-prepared materials not required for the course.

Except for inserts, write only on one side of the bluebook page. Please answer essay questions 1-3 in one bluebook and essay questions 4-5 in a second bluebook. Typed copies should be double spaced. Please use ink if you do not type.

Be sure to put your examination number on each bluebook and on the examination. Be sure to turn in the examination as well as both bluebooks.

Please read each question carefully and ensure that your answers are responsive to the questions asked.
